HurstTANLAC DISPLAY
MAKES GREAT HITUnique And Attractive Display Of
Celebrated Medicine Attracts
Much Attention

An advertising display which has attracted unusual interest has been placed in the show window of the Cedar City Drug Co. in this city, the local agency for the well known and highly successful proprietary medicine, Tanlac.

The display is not only interesting from an advertising standpoint, but is educational, combining in an attractive and artistic manner beautiful scenes from many foreign countries where the ingredients of this preparation are obtained.

It has occasioned such favorable comment in the city that the proprietors of the store state that it will remain in their window several days longer.

Work Of Great Artist.

The display is the work of one of America's greatest lithographic artists and the manufacturers of Tanlac state that the total cost will exceed sixty thousand dollars, which is said to be a record price for window displays. It is in ten distinct and natural colors, and presents scenes from the Rocky mountains, as well as from Europe, Asia, Peru, Egypt and other foreign countries.

The natives are seen in their natural habitat and environment, gathering the roots, herbs and barks that form the medicinal ingredients of Tanlac, packing them upon the backs of camels, elephants, llamas and other beasts of burden for transportation by land and sea to the immense laboratories at Dayton, Ohio and Walkerville, Canada.

One of the most striking features of the display is the reproduction of the magnificent laboratory at Dayton. Here the artist has very effectively and impressively portrayed the popularity of Tanlac by introducing a group of people in all walks of life, who are looking at the Tanlac laboratory with expressions of confidence plainly indicating their belief and faith in the medicine.

Another distinctive feature is the bulletins accompanying the display. They tell briefly and concisely of the marvelous growth and development of Tanlac, until today it has the largest sale of any medicine of its kind in the world. These bulletins also quote various standard medical authorities as to the therapeutic value and physiological effect of the medicine. 60,000 Bottles a Day.

From these bulletins one also learns that the new Tanlac laboratories at Dayton and Walkerville have a combined daily capacity of 60,000 bottles and that the medicine is now selling at the rate of approximately 10,000,000 bottles per year.

That Tanlac is a preparation of exceptional merit has never been disputed, which accounts for its tremendous popularity and large sales throughout the country. It is a powerful reconstructive tonic and body-builder and has a far reaching and most beneficial effect upon the entire system. Many strong local endorsements from those who testify as to the benefit they have received, have

THE AMERICAN RED CROSS
IN PEACE TIME
Aiding Poland

But for the work of American Red Cross agents in all regions of Poland during the last twelve months, hundreds of thousands of people in that tragic country today would be under the sod, victims of hunger, disease and exposure. The job in Poland is one of tremendous proportions and cannot be abandoned for many months to come. Here is a typical scene: A Red Cross worker "at the throttle" of a soup kitchen where hundreds of undernourished women and children are fed daily.
